## DETAILED ACTION

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 25, 2002 has been entered.

### ***Claim Rejections - 35 USC § 102***

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. Claim 1 is under 35 U.S.C. 102(b) as being anticipated by Sigetich et al, as set forth in the Office action mailed October 22, 2001.

### ***Response to Arguments***

4. Applicant's arguments filed March 25, 2002 and May 16, 2002 have been fully considered but they are not persuasive. Applicant has argued that the tile saw disclosed by Sigetich et al does not function as applicant's saw. The recitation of the intended use of the claimed invention must result in a **structural** difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim. In a claim drawn to a process of making, the intended use must result in a manipulative difference as compared to the prior art. See *In re Casey*, 152

Art Unit: 3723

USPQ 235 (CCPA 1967) and *In re Otto*, 136 USPQ 458, 459 (CCPA 1963). (emphasis added). Sigetich et al does not differ structurally from applicant's device. The examiner agrees that the method of operation of Sigetich et al may differ from applicant's method of operation, but such is not claimed as a distinct and independent invention. Applicant is directed to the actions mailed May 1, 2002 and May 29, 2002 for further discussion of this issue.
